

## SEEKING FEEDBACK ON POTENTIAL CHANGES TO COMMUNITY CARE

***Take the chance to contribute to Council's decision-making processes!***

*The Pyrenees Shire Council currently provides home-based care and support to seniors for everyday tasks and to maintain connectivity to their community through its Community Care Team*

*The current funding model will change in the future to a more integrated client-managed method called the Commonwealth Support at Home Program.*

*More information is available at <https://www.health.gov.au/resources/publications/support-at-home-program-overview>*

*The reforms to be introduced by the Commonwealth Government are likely to significantly impact the ability of councils to continue delivering these services—many councils have already discontinued direct service delivery.*
